Scientists at University College San Francisco have developed a virus that can repair the damage done to the liver because of drinking

<https://www.thedrinksbusiness.com/> - 03/06/2016

The bespoke virus will target damaged liver cells by converting them into healthy cells and could eventually lead to the end of the need for liver transplants.

Why low sulfite wines taste better

<http://vinepair.com/> - 03/06/2016

“Contains sulfites” is a fairly off-putting statement on a bottle of wine that you hope to enjoy with a meal, gift to a friend, or share with a loved one.

A Danish study found that Alzheimer's patients may benefit from moderate wine consumption

<http://www.winespectator.com/> - 03/06/2016

New research from the University of Copenhagen's Department of Public Health suggests moderate alcohol consumption can help patients already suffering from mild forms of Alzheimer's, reducing their mortality rate significantly.

New detection technology may yield a TCA-free future for cork suppliers

www.beveragedaily.com - 02/06/2016

Wine cork quality control has hit a new level of precision with cork producer Amorim's NDtech, an automated system that screens individual cork stoppers on the production line for trichloroanisole (TCA).

Zhao Wei (red coat) at a tasting in Beijing to launch her Bordeaux wine in China. Legal protection for Bordeaux in China... The post Bordeaux wine...

Germany backs proposal for legal definition of vegetarian and vegan food

www.beveragedaily.com - 01/06/2016

Germany has formally adopted a proposal for a legally binding definition of vegan and vegetarian food - but will it spur the Commission into finally drawing up an EU-wide definition or will it be another barrier to trade for EU manufacturers?
